

ALLERGEN POLICY

Document No:	SPO.004
Date of Issue:	09.01.2024
Rev. Date/No:	00
Page No:	1/1

Sacev Plastik administrative staff and personnel have ensured the establishment of a quality management system by taking into account the priorities of the products they produce and all the sectors in which their products are used, and always produce with the awareness of their responsibilities regarding product / food safety.

With this policy, we declare that we implement a strict allergen management in our business and that we document this within our quality management system and monitor the activities on the subject.

None of the products we produce and inputs are allergenic. Our allergen management system has been created to take into account cross-contamination that may occur within the business, starting from our suppliers.

- Keeping and consuming food and beverages in warehouse / production areas and in personnel changing rooms is strictly prohibited.
- Consumption of food and beverages is only possible in defined restricted areas.
- Visitors to our company are subject to the same rules as our staff.
- Service suppliers who come to our facility are informed about this and taken into the facility.
- Transport / shipping vehicles are checked against allergen contamination risks during loading and unloading.
- All maintenance oils used in our business are approved and used after receiving declarations stating that they do not contain allergens.
- All our staff receive regular training on allergen risks and controls.

We always aim to provide safe products to all our customers with the precautions we take and the rules we set within the business.

Managing Director
